

## Secondary School Courses 2020 - 2021

All our courses use challenging outdoor activities in the beautiful natural setting of the Lake District as a vehicle for learning and development. They help students to develop awareness of and respect for themselves, other people and the natural environment.

We offer a number of different courses designed for Secondary schools:

**Challenge** is a 5-day course. During a *Challenge* course students: improve their self-awareness and personal responsibility; develop the ability to work with other people and to contribute to the success of the team; improve their ability to solve problems and meet new challenges; increase their motivation and appetite for learning, and raise aspirations; learn to assess and manage risk.

The **John Muir Award** is a national environmental award scheme focused on wild places. The 5-day course encourages awareness and responsibility for the natural environment, in a spirit of fun, adventure and exploration. It has four essential elements: discovering a wild place; exploring its wildness; conserving by taking personal responsibility; sharing experiences.

Our **Activity Weekend** provides an introduction to a range of outdoor activities, or an opportunity to specialise in one activity. It can be tailored to focus on specific learning outcomes if required.

Students studying **GCSE PE** can complete a module in a chosen outdoor activity during a 5-day course, or for some activities in a long weekend.

We also design **Custom courses** based on your specific requirements for learning objectives, activities or length. Examples of custom courses include: exam revision weekends; transition courses; subject-focused courses in partnership with your teachers; activity courses; Leadership courses; courses for special schools or PRUs. Please contact us to discuss the possibilities.

**Leadership** is a custom course aimed at students in Years 10 to 13, and can be tailored to meet the needs of different groups. Students develop the personal qualities and wider key skills required in the world of work; gain experience and an understanding of leadership; develop an understanding of team roles, and value their own and others' contribution to a team; create an individual action plan.

5-day courses normally run from 10.30 am on Monday to 1.30 pm on Friday.

Weekend courses normally run from 5.30 pm on Friday to 4.30 pm on Sunday.

Further details of these courses are on our [website](#)

### Visiting Staff

We provide one free staff place per group.

Whenever practically possible we encourage schools to bring a floating member of staff who would normally be the Visit Leader:

- 1 Group: 2 Accompanying Staff
- 2 Groups: 3 Accompanying Staff
- 3 Groups: 4 Accompanying Staff

An accommodation charge is made for additional staff. Please enquire for prices.

Prices for custom courses and for courses requiring us to provide a higher staff ratio can be quoted on request.

### Group size and type of booking

We allocate activity groups to your course on a ratio of 1:10 (GCSE PE courses ratio of 1:8).

Our maximum capacity is 72 students and 9 staff, but with secondary schools we normally limit the maximum to 60. If you have a minimum of 54 students, you can make an **Exclusive booking** and have the Centre to yourselves. If you have fewer than 54 students, you can make an Independent booking (or you could get together with another school to make a joint booking). An **Independent booking** means that your pupils take part in their course separately from any other school in the Centre, but share facilities with them.
